# Dharmendra Lalji Vishwakarma

vdharam18@gmail.com — http://vdharam.com

## Profile:

- Senior software engineer with 5 years and 2 months of solid experience in enterprise web application development using technologies Java, J2EE, Spring, Hibernate, Angular, Grails and ZK.

- Practical experience of a building project from scratch.

- Finance domain application development expertise in terms of application security, integration and automation.

- Pursuing a Master's in Data Analytics from National College of Ireland for better career prospects.

- Available for part-time/remote projects during the term and full-time opportunities from June 2019.

- Seeking opportunity in Software Development

## Education:

**09.2018 − 09.2019**                                    **National College of Ireland, Dublin**

MSc in Data Analytics                                                      www.ncirl.ie

**Modules:** Statistics for Data Analytics, Data Storage & Management, Data warehouse & business intelligence, Strategic ICT & eBusiness Implementation, Advanced Data Mining, Data Visualization, Research in Computing, Programming for Data Analytics and Research Project.

**07.2009 − 05.2013**                          **St. Francis Institute of Technology, Mumbai**

B.E. in Information Technology (Grade :72.47%)                            www.sfitengg.org

**Modules:** Data structure and Algorithms, Operating Systems, Computer Networks, Object-Oriented Programming, Databases, Software Engineering, Internet Programming, Applied and Computational Mathematics.

**06.2007 − 06.2009**                              **Shailendra Education Society, Mumbai**

H.S.C (Grade :83.67%)                                    www.shailendradegreecollege.in

## Technology Skills:

- **Programming Languages:**
  Java, J2EE, SQL, PL-SQL, JSP, Servlets, ORACLE, MySQL, HTML, JavaScript, jQuery.
- **Frameworks:**
  Spring, Hibernate, Grails, ZK, Angular JS, Angular 4, Liferay portlets JSR 286.
- **Tools & Others:**
  Eclipse, GGTs, Net beans, Centos Server, AutoSys, Bash, SVN, Git, Apache Tomcat, Glassfish Server, Magic-XPI, Basic Hardware & Networking Knowledge.
- **Course & Certification:**
  Oracle Certified Associate Oracle 11g DBA (SQL fundamental-1), Corporate Training

## Career History:

**10.2017- 08.2018:**                                    **Larsen & Toubro Infotech, India**

Senior Software Engineer                                          www.lntinfotech.com

- Worked in a product development team of client Citi, MONET project.

- Collaborated with existing team to understand requirements and implemented new features on the product.
- Analysed the reporting framework of the existing application to propose further enhancements.
- Automated the flow of application data Management from upstream systems. This has led to a significant boost in the process as compared to the manual work.
- Supported the team for Sprint releases.

- **Technology and Platform:** Java, Spring, GWT, Hibernate, Angular 4 (for new dashboards), Oracle Database, AutoSys, MongoDB (Archiving), JBoss, Linux.
- Worked on a microservices architecture based prototype application with Spring Boot and Java and helped the team of developers for implementing in a new system.

**03.2016-10.2017:**                                    **Intelliswift Software India Pvt Ltd, India**
Senior Software Engineer                                      www.intelliswift.co.in

- Developed 3 web products from scratch for the banking domain.
- Followed OWASP points for application security, role-based & maker-checker based admin system.
- Implemented system integration workflow design with the fail-over mechanism.
- Performed tuning of application time-to-time on development builds to ensure the optimum performance (with Sonar-lint, PMD, GTmetrix, New Relic and App dynamics).
- Provided UAT/Production support to the client at Offshore/Onsite.
- **Technology and Platform:** Java, Spring, Hibernate, Oracle Database, JavaScript, jQuery, Apache Tomcat, Linux.

**10.2015- 02.2016:**                                          **Freelancing**
Freelance Developer

- Mentored and developed a web app for a client as per the specification.
- Worked as a freelance teacher for Java and Data structure & Algorithms.
- Built a portfolio site vdharam.com to showcase the skills considering the enterprise development standards.

**07.2013- 02.2015:**                                       **Neebal Technologies Pvt Ltd, India**
Software Engineer                                         www.neebal.com

- Developed 10+ projects with different clients and guided a team of developers for code quality and performance in an agile environment.
- Managed the company's major client projects single-handedly and suggested technical improvements.
- Successfully launched client's major system upgrade keeping the current system live.
- Attended corporate training and mastered the skill for java application development, reporting, optimisation and scalability.
- **Technology and Platform:** Java, Grails, ZK, Spring, Hibernate, Angular, JavaScript, jQuery, Oracle, MySQL, ActiveMQ, Magic XPI, Glassfish Server, Apache Tomcat, CentOS.

## Interests and Achievements

- **Own Projects:**
  As a passionate developer, I maintain www.vdharam.com and http://vdharam.wordpress.com.
- **Work Achievements:**
  Neebal Excellence award for a successful product launch.

**Stamp 2 visa: Eligible to work 20 hours a week during term time, 40 hours a week during holidays.**
